Reasons for Allowance

1. Claims 1 and 11-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicants' claimed invention is directed to a packet containing an iron oxygen absorber and a liquid uptake accelerator for scavenging oxygen. The closest prior art of record is considered to be US Patent 4,588,561 to Aswell which disclosed a similar oxygen scavenging packet which uses different amounts of oxygen absorber and accelerator. Applicants have shown, by way of declaration and example, that the packet disclosed by Aswell is incapable of reducing the oxygen content within the packet to a volume as low as is capable by the present invention. It is thus submitted that Applicants' claimed oxygen scavenging packet provides superior results over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
